## **Academy of Medical Education Scholars (AMES)**

*The mission of the AMES is to recruit, mentor and retain outstanding educators and promote excellence in teaching and educational scholarship at all College of Medicine teaching sites.*

Educators to recognize its most outstanding educators and to provide a forum for teaching faculty to work together to enhance educational programs.

Thirteen distinguished College of Medicine faculty members have been named inaugural members of the newly established academy. They will work in collaboration with the College of Medicine's Educational Policy Committee to refine the academy's mission. This effort will be guided by the recommendations of a planning committee chaired by Joseph Alpert, MD, professor of medicine.
